

# Healthy Smile Club

## What is the Healthy Smile Club?

The Healthy Smile Club is our new membership package available to new and existing patients without dental insurance. There are two different packages which allow you to pay for your dental care on an annual basis. In return you will receive a comprehensive program of prevention, maintenance and treatment for fresh breathe, healthy gums and a happy, confident smile.

## How will it benefit me?

- Less Stress, you can feel like you can come in and afford treatment.
- You will be able to have regular preventive visits and catching decay when it's small.
- Less likelihood of a toothache.
- **Reduce Cost**

## Why should I become a member?

With A Healthy Smile Membership, we see our relationship with you as a long-term partnership. We believe that your smile is one of your most valuable assets, which is why we are committed to helping you look after and make the most of it through affordable, high quality and professional dental care and treatments. With our help, we'd like you to feel good about your teeth providing you with good health, function and we want you to know how best to keep it that way- everyday!

## Can anyone join?

Whether you have had a lot of dental treatment in the past or not, the plan is designed for anybody to join. You are not assessed on the state of your mouth and you do not have to undertake any expensive courses of treatment in order to be accepted.

## Which plan do I sign up for?

At you initial visit you and your doctor will do a comprehensive assessment of your gums, bone level and your overall oral health. Based on those findings we will offer you a program that will best suit your needs and be the most cost effective for you.

- **What is a Prophylaxis Cleanings?** It is a non-therapeutic procedure for the maintenance of a healthy mouth. Prophy is only provided for patients *without* periodontitis. It is primarily a supra gingival procedure and is provided at six-month intervals.

**What is Perio Maintenance?** Periodontal maintenance (PM) is different than prophy and is most commonly utilized for patients who have had active periodontal disease. It is ongoing treatment for periodontitis, which is a chronic and non-curable bacterial infection. The objective of PM is to keep the disease under control. Any type of periodontal treatment is ineffective in the long term without an effective PM regimen. \*Periodontal maintenance is provided every three months.
